FORKLIFT INFLATOR

DESCRIPTION

The Forklift Inflator is easily installed on any forklift and is powered by the forklift battery. Once installed, simply flip the switch to fill airbags anywhere inside the trailer or container.

This inflation technology significantly decreases loading time and allows you to be as mobile as ever. No more dragging long air lines across the loading dock and no more connecting and disconnecting inflators. The Forklift Inflator requires no air lines or air compressors to function. Simply flip the switch and fill dunnage air bags anytime, anywhere in seconds.

SPECIFICATIONS

Max Pressure:	1.5 P.S.I.
Hose Length:	15 ft.
Unit Weight:	7.5 lbs
Unit Part Number:	MA1000

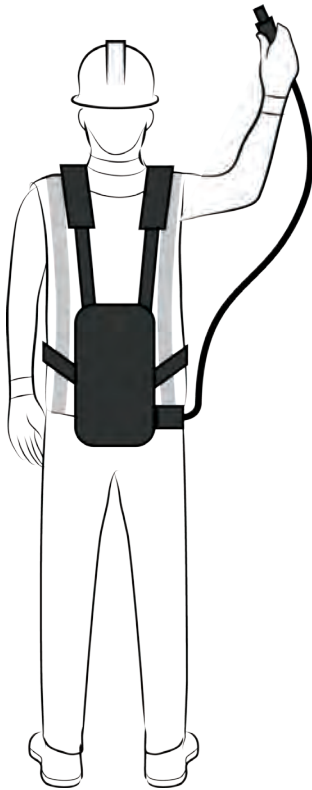

BENEFITS

- Significantly reduces load time
- No air lines or carts needed
- Air hose with designated storage bracket
- Universal attachment bar
- Easy reach on/off switch
- Runs off forklift battery

INSTA-AIR INFLATOR

DESCRIPTION

The Insta-Air Inflator is the newest addition to our Mobile Air Series. Insta-Air was created to provide a portable solution for filling airbags with no air lines, air compressors or power outlets required. Dunnage bags can be inflated anywhere.
