

STL-105

FEATURES/BENEFITS:

- Works with standard duty and high tensile straps
- Easy to transport
- Heavy duty construction with quality materials
- Assembled in Woodridge, IL

DESCRIPTION:

The STL-105 manual sealless combination steel strapping tool accommodates both standard duty and high tensile strap without any part modifications. Easily manipulate the small baseplate into different orientations for a wide range of ergonomic strapping positions. The STL-105 is a great option for large industrial environments where air power is not readily available. This tool is assembled in Woodridge, Illinois, making parts and service ready for immediate delivery.
