

STL-3SS

(BATTERY-POWERED STEEL TENSION ONLY)

FEATURES/BENEFITS:

- One push button operation
- More than 200 cycles per battery charge
- 0.0417 in Makita progressive high-performance motor

DESCRIPTION:

The STL-3ST battery-powered steel strapping double notch up-cut sealer is one of the newest addition to Samuel's 3-series steel tool line. Known for its simple operation, ergonomic design, and Makita technology, the STL-3SS is a great option for creating double notch up-cut seal joints in any industrial environment, without the need for pneumatic lines. With up to 200 sealing cycles per battery charge, the STL-3SS can be used over the course of a standard shift without downtime. Paired with the new STL-3ST, this duo is a great new addition to any facility.
